

The
SWAMP
CREATURE

Few dare take passage
through the swamp at night.

Among the
tangled brush...

... an unseen
creature splashes
in the darkness.

The townfolk speak of
a beast that lurks below the
murky water, roots, and reeds,
wrecking havoc without
evidence or witness.

with teeth
like pointed
daggers

grasping
claws

and scaly
writhing
coils

It terrorizes those who work
on the river. Capsizing boats
and stealing the catch right
out of fishermen's nets.

And for those
foolish enough
to live among
the twisted
mangrove trees

They can be sure
the monster is watching
just out of sight
in the shadows.
